

THE SPOT IN DAHAB

Dahab offers three spots in one. The "lagoon" is a protected bay with a shallow flat water area and small chops. A top spot for intermediates and freestyle freaks, and an ideal training area for beginners and experts alike. Leaving the protected lagoon, you will reach the "Speedy" - a perfect flat water strip for advanced windsurfers. The wind blows more constantly than inside the lagoon and is normally around 1-2 Beaufort stronger. A "rest & rescue" island offers you the chance to take a break or call for help if necessary. As you leave the "Speedy" you will reach the third spot which is behind the Napoleon Reef. Here a 1-2 m high wind swell will welcome you with perfect jumping conditions.

WIND AND WAVES

The position of the mountains creates strong thermal winds the whole year round. The wind at the Club Mistral Hilton blows slightly cross-offshore to offshore from the left. Owing to the wind shadow in front of the center sailing out and back in is not always easy. At our second center, Club Mistral Meridien, the wind blows side shore from the left giving experienced windsurfers the advantage of getting to "Speedy" in only a couple of reaches.

THE CENTER

The Club Mistral Center at the Hilton has existed since 1998 and is located directly in the lagoon. Made completely out of wood, it offers lots of space to relax whilst having a great view over the spot. The Club Mistral Center "Meridien" is situated at the Hotel Le Meridien about 1 km outside of the lagoon. This location has constant side shore wind and ample space - a must in Dahab! You can launch directly from the shore even with the smallest wave board, and also return to the beach without any problems. In front of the center there is sometimes a small shore break and the launch is moderately stoney, which is why we don't offer windsurfing beginner tuition at the Meridien, but only at the Hilton center. In Dahab you can use one voucher for both centers.
